

Key Stage 4 Science

Activity Plan Sheet 2 – What is type 1 diabetes?

Learning Outcomes

- Recognise the symptoms of having type 1 diabetes.
- Relate to how having type 1 diabetes would affect a person's lifestyle.
- Think about how type 1 diabetes might affect a person emotionally.

Task

Active listening – students to watch the video Day in the Life.

Role play – students to work in pairs, one to be the interviewer and one to play the role of a student with type 1 diabetes. Students to write a script for their role play. They must cover the following areas:- what are the symptoms of having type 1 diabetes (include information about hypo and hyper)? How does having type 1 diabetes affect a person's lifestyle? How might having type 1 diabetes make a person feel?
