

Type 1 diabetes should not be an obstacle to a healthy and enjoyable school life but having to deal with misconceptions about the condition can have a negative impact on a young person and their school experience.

JDRF, the type 1 diabetes charity, has developed a schools pack to ensure teachers, students and parents of other children understand the issues faced by a child with type 1 diabetes.

The schools pack contains:

- A guide for those who work in a school or educational setting
- A guide for parents of students
- A hypo procedure guide
- An assembly plan to introduce type 1 diabetes to the school
- A student hypo card
- Access to KS₁₋₅ lesson plans to teach about type 1 diabetes

Head to jdrf.org.uk/educate

to order or download your free pack today. There you will also find other resources for schools including our CPD accredited e-learning module to help school staff learn how to support a child with type 1 diabetes in an education setting.

Schools up and down the country are raising money to help create a world without type 1 diabetes! We have a whole host of fun activities and ideas for you to try at school or you can bring your own idea to life.

Raising money is a great way for everyone to show support and raise awareness for those with type 1 in your school.

Whatever you decide to do we'll be on hand to support you with anything you need to make your fundraising a big success!

Here are some ideas:

- Get the whole school to Go Blue! Wear something blue for an own clothes day or go all out and paint faces blue too. You could also have a blue bake sale and a big blue quiz!
- Hold a #TypeOnesie Day. Wear a onesie to stand out and stand up to type 1 diabetes. It's a great way to raise money and awareness!
- Hold a Type 1 Tea Party. Put the kettle on and settle down with a cuppa and your favourite biscuits to raise money for JDRF.
