

Key Stage 5 Science

Activity Plan Sheet 2: How do type 1 and type 2 diabetes differ?

Learning outcomes

- Explain the causes and treatments for type 1 diabetes.
- Compare and contrast type 1 and type 2 diabetes.
- Summarise researched information in a succinct and scientific manner.

Task

- Research – research type 1 and type 2 diabetes using the internet and other available resources. Start by looking on jdrf.org.uk. Remember to only use websites with scientific merit and not websites, such as Wikipedia, where the content is unregulated.
- Summarise – produce a table to summarise your research on type 1 and type 2 diabetes.
- Compare and contrast – use two different coloured highlighters to highlight the similarities between type 1 and type 2 diabetes, with one colour, and the differences with the other colour.
